DESOLDERING TOOL

Handy Desoldering Tool

Four new features that increase workability and efficiency

1

Quick Change Nozzle System provides speed and safety.

Nozzle changing tool

The new Quick Change Nozzle System allows for a safer and simpler method to quickly remove nozzles for cleaning or replacement, even when the unit is hot.

Filter pipe

Dispose of solder dross with a simple operation without being affected by heat.

3

Calculated weight balance

Motor, pump, and temperature control circuit are optimally positioned within the body to ensure good balance when holding the gun.

Well-balanced
Ergonomic design for operators' comfort

2

Dial control for easy temperature selection

The dial integrated into the handle makes it easy to adjust the temperature setting without the use of additional tools.

Setting 1	350°C	Setting 2	400°C
Setting 3	450°C	Setting 4	500°C

LED indicators let you easily see when the heater is active and idling at your temperature setting.

Features LED lamp that indicates heater's activity

Dial for temperature control

4

Integrated power switch

Locating the power switch on the handle makes it possible to turn the tool on and off with ease and

does away with the hassle of having to remove the plug when you want to turn off the tool.

FR-300
