

SD-501 (DIGITAL DISPENSER)

A unique digital dispenser with a bright digital display and "teach & learn" process programming. Up to 9 independent dispensing programs can be stored for fast recall. The output pressure display is digital and unit works at 24V DC making the unit very stable (DC adapter included).

The SD-501 has three modes of operation. Auto cycling, which operates by sequencing a self-taught cycle of events including a dispense time together with a wait or pause condition between the cycles. Manual-mode enables a dispense operation to be manually controlled by a foot pedal or hand switch and Timed-mode dispenses at a pre-set time.

MODEL

SD-501 Digital dispenser (110/220V)

SPECIFICATION

Size	8 5/8" x 8 1/2" x 2 5/8" (22 x 21 x6.7cm)
Weight	2.2 lbs. (1 kg)
Input Voltage	24V DC (DC adapter included)
Dispense Time	0.01 - 9999 seconds
Cycle Speed	600+ /Minute
Input Pressure	70-100psi (5-7 bar)
Output digital Pressure	1-100psi (0.1-7 bar)

PACKING LIST

1	MAIN UNIT SD-501
2	24V DC ADAPTOR
