

TP-50 (DISPENSING CONTROLLER)

This Model is suitable for low-viscosity materials (Instant adhesive, anaerobic bond, flux oil, ink, solvent, etc).

- Excellent dispensing accuracy due to microstep control (pulse control).
- Digital display for time setting and pressure control.
- Creative head design and extended service life of the tube.
- Simple design and compact size.
- Durable and easy-to-operate.

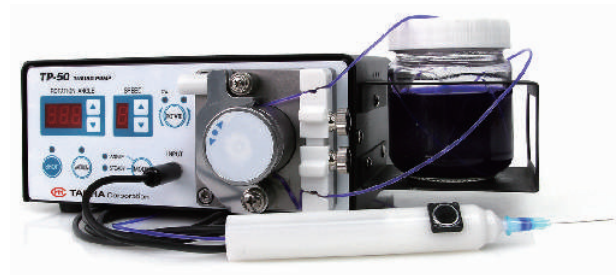

SPECIFICATIONS

Dimensions	177 (W) x 183 (D) x 83 (H) mm
Weight	3.5 kgf
Power	AC 220 (110V), 50/60Hz
RPM	0~160RPM
Shot angle	Dispensing 0~999°, Vaccum 1~999°
Shot Size	0.0001cc (using tube Ø0.3 x Ø0.8)
Viscosity	below 5,000cPs

Tube Size

0.3 x 0.8
0.5 x 1.0
1.0 x 1.5
1.5 x 2.0
2.0 x 2.5
2.5 x 3.0
